Contents of Volume 36

Number 1, August, 1989

Cloning and characterization of an *Onchocerca volvulus* specific DNA sequence
S.E.O. Meredith, T.R. Unnasch, M. Karam, W.F. Piessens and D.F. Wirth (U.S.A., Burkina Faso) 1

Identification of GTP-binding proteins in *Fasciola hepatica* and *Schistosoma mansoni* by immunoblotting
J.M. Mansour and T.E. Mansour (U.S.A.) 11

The 86-kilodalton antigen from *Schistosoma mansoni* is a heat-shock protein homologous to yeast HSP-90
K.S. Johnson, K. Wells, J.V. Bock, V. Nene, D.W. Taylor and J.S. Cordingley (U.K., U.S.A.) 19

Effect of gas phase on carbohydrate metabolism in *Ascaris suum* larvae
L. Vanover-Dettling and P.R. Komuniecki (U.S.A.) 29

Modulation of *Trypanosoma cruzi* adhesion to host muscle cell membranes by ligands of muscarinic cholinergic and beta adrenergic receptors
B.F. von Kreuter and C.A. Santos-Buch (U.S.A.) 41

Identification of an epidermal growth factor receptor homologue in trypanosomes
G. Hide, A. Gray, C.M. Harrison and A. Tait (U.K.) 51

The mature erythrocyte surface antigen of *Plasmodium falciparum* is not required for knobs or cytoadherence
C. Peterson, R. Nelson, C. Magowan, W. Wollish, J. Jensen and J. Leech (U.S.A.) 61

Ribosomal RNA-based diagnosis of *Plasmodium falciparum* malaria
A.A. Lal, S. Changkasiri, M.R. Hollingdale and T.F. McCutchan (U.S.A.) 67

On the DNA content of *Trypanosoma cruzi*
R.F. Kooy, F. Ashall, M. Van der Ploeg and J.P. Overdulve (The Netherlands, U.K.) 73

Specificities of antibodies that inhibit merozoite dispersal from malaria-infected erythrocytes
J.A. Lyon, A.W. Thomas, T. Hall and J.D. Chulay (U.S.A.) 77

Evidence for unusually short tubulin mRNA leaders and characterization of tubulin genes in *Giardia lamblia*
K.E. Kirk-Mason, M.J. Turner and P.R. Chakraborty (U.S.A.) 87

Number 2, September, 1989

Protein kinase C in *Trypanosoma cruzi* epimastigote forms: partial purification and characterization
M.L. Gómez, L. Erijman, S. Arauzo, H.N. Torres and M.T. Téllez-Iñón (Argentina) 101

Maintenance of cytoplasmic pH and proton motive force in promastigotes of *Leishmania donovani*
D. Zilberstein, H. Philosoph and A. Gepstein (Israel) 109

Major sperm protein genes from *Onchocerca volvulus*
A.L. Scott, J. Dinman, D.J. Sussman, P. Yenbutr and S. Ward (U.S.A.) 119

Passive modulation of antigenic expression in the surface of normal and malaria-infected erythrocytes
D. Baruch and Z.I. Cabantchik (Israel) 127

Plasmodium falciparum antigens associated with membrane structures in the host erythrocyte cytoplasm
H.A. Stanley, S.G. Langreth and R.T. Reese (U.S.A.) 139

Application of a recombinant *Enchinococcus multilocularis* antigen in an enzyme-linked immunosorbent assay for immunodiagnosis of human alveolar echinococcosis
N. Müller, B. Gottstein, M. Vogel, K. Flury and T. Seebeck (Switzerland) 151

Chromosome size and number polymorphisms in *Leishmania infantum* suggest amplification/delection and possible genetic exhange
M. Pagès, P. Bastien, F. Veas, V. Rossi, M. Bellis, P. Zincker, J.-A. Rioux and G. Roizès (France) 161

A gene expressed only in serum-resistant variants of *Trypanosoma brucei rhodesiense*
C. De Greef, H. Imberechts, G. Matthyssens, N. Van Meirvenne and R. Hamers (Belgium) 169

A 60-kDa *Plasmodium falciparum* protein at the moving junction formed between merozoite and erythrocyte during invasion
F.W. Klotz, T.J. Hadley, M. Aikawa, J. Leech, R.J. Howard and L.H. Miller (U.S.A.) 177

Purification of cytosolic glutathione transferases from *Schistocephalus solidus* (plerocercoid): interaction with anthelmintics and products of lipid peroxidation
P.M. Brophy, A. Papadopoulos, M. Touraki, B. Coles, W. Körting and J. Barrett (U.K., Greece, F.R.G.) 187

Sequence of a cDNA for the ND1 gene from *Leishmania major*: Potential uridine addition in the polyadenosine tail (*Short Communication*)
D.A. Campbell, T.W. Spithill, N. Samaras, A.M. Simpson and L. Simpson (U.S.A., Australia) 197

Number 3, October, 1989

Restriction enzyme mapping of ribosomal DNA can distinguish between fasciolid (liver fluke) species
D. Blair and D.P. McManus (U.K.) 201

Identification of virus-like particles in *Eimeria stiedae*
H. Revets, D. Dekegel, W. Deleersnijder, J. De Jonckheere, J. Peeters, E. Leysen and R. Hamers (Belgium) 209

Isolation of a female-specific, highly repeated *Schistosoma mansoni* DNA probe and its use in an assay of cercarial sex
P. Webster, T.E. Mansour and D. Bieber (U.S.A.) 217

Human T-cell stimulation, molecular characterization and in situ mRNA localization of a *Brugia malayi* recombinant antigen
P. Arasu, T.B. Nutman, C.Steel, M.M. Mulligan, D. Abraham, R.S. Tuan and F.B. Perler (U.S.A.) 223

Identification and preliminary characterization of cuticular surface proteins of *Haemonchus contortus*
G.N. Cox, L.M. Shamansky, and R.J. Boisvenue (U.S.A.) 233

A genomic change associated with the development of resistance to hycanthone in *Schistosoma mansoni*
P.J. Brindley, F.A. Lewis, T.F. McCutchan, E. Bueding and A. Sher (U.S.A.) 243

Point mutations in the dihydrofolate reductase-thymidylate synthase gene as the molecular basis for pyrimethamine resistance in *Plasmodium falciparum*
J.W. Zolg, J.R. Plitt, G.-X. Chen and S. Palmer (U.S.A.) 253

A glycolipid from *Trypanosoma brucei* related to the variant surface glycoprotein membrane anchor
J.L Krakow, T.L. Doering, W.J. Masterton, G.W. Hart and P.T. Englund (U.S.A.) 263

Cloning and analysis of the gene encoding the 230-kilodalton merozoite surface antigen of *Plasmodium yoelii*
A.P. Lewis (U.K.) 271

Precursor to the major merozoite surface antigen of *Plasmodium yoelii*: cloning and sequencing of the middle 1.9-kb region (*Short Communication*)
T.M. Daly, J.M. Burns, Jr. and C.A. Long (U.S.A.) 283

Amino acid sequence homology between cyclophilin and a cDNA-cloned antigen of *Echinococcus granulosus* (*Short Communication*)
M.W. Lightowlers, A. Haralambous and M.D. Rickard (Australia) 287

Codon usage in *Schistosoma* (*Short Communication*) 291

H.M. Meadows and A.J.G. Simpson (U.K.) 291
